

GROK DEV SANDBOX RULES

Boundary: edit ONLY inside dev_sandbox_project_session folder.

Do NOT modify electron, package.json, root config, or existing source files.

Task: prototype Open Project, New Project, Save Project as .grokproj.

Saved file should restore prompts, config, batch progress, assets, statuses, output folder, provider settings, final merged video path, and timeline.

Required deliverables in this folder:

1. README.md overview.
2. project_session_schema.md JSON schema proposal.
3. implementation_plan.md integration plan.
4. Optional prototype and tests folders.

Rules: no production changes, no API keys in plaintext, validate loaded files, include schemaVersion, and treat local file paths as possibly missing.
